

What makes Fortune Hi Tech Marketing different than any other Network Marketing Business you have ever looked at?

The Editor of Millionaire Blueprint Magazine states "... if I ever made the decision to get involved in any network marketing company, I would join this man and his company. The concept of the company is unique, it is financially strong because it is backed by Paul himself, and he has major dollars. Major national companies are lining up trying to get his company and distributors to sell their products. His compensation plan is like no other in its generosity, and millions of dollars have been spent on the support and technology for the distributors."

- ü **"Fortune Hi Tech Marketing was started with a unique premise: an unprecedented pay plan that gives sales representatives more money back than they invest"...**
Millionaire Blueprint Magazine
- ü An extremely **low start up cost ... only \$299**
- ü Fortune even offers you a way to **get your initial \$299 investment back within 60 days**
- ü We have business partners with all different levels of education and experience, from Doctors to Ditch Diggers... but no education or experience is necessary to be successful in this business.
- ü **Fortune pays you 40 different ways.** Even if you do **NOT** understand all the different ways you get paid, you still receive the income
- ü **Fortune Hi Tech Marketing will never be a publicly held company.** That allows company to make decisions that benefit the representatives rather than the stockholders, which is the number 1 reason Paul continually finds more ways to pay his reps. At Fortune more profit = more pay increases.
- ü Founder Paul Orberson says that in order to give Fortune Reps a raise, the only person he has to talk to is the computer tech.
- ü **In the last 7 years there have been over 30 pay increases plus the Lexus car program paid out to Reps.**
- ü Over 90% of all of the income that Fortune makes is paid back to the reps.
- ü Our founder Paul Orberson still, to this day, holds the record of everyone in every network marketing company as the only rep to ever earn over a million dollars a month for over three consecutive years! With that experience **he designed FHTM to be literally the best network marketing company ever with the best pay plan!**
- ü **The company is, and always will remain 100% debt free**
- ü While most network marketing companies (Multi Level Marketing Companies) pay for up to six seven or eight levels **our Compensation Plan pays to unlimited levels**
- ü Once you sponsor someone you **NEVER** lose them
- ü **There is no compression.** Everyone stays where they sponsor in, even if someone leaves, everyone else stays in the same position.
- ü **You can't fall out of the business even if you stop doing the business.** If you change your mind and go back at a later date, you go back right where you were by just paying your yearly renewal fee ... even if you haven't done anything in years!
- ü **You get paid Every Week, not just once a month.**
- ü **Every Friday you are paid** quick start bonuses, training money, and quick start overrides.

- ü **Once a month you are paid** your residuals and the bonuses from each of your Regional, Executive and National Codes.
- ü **You only need 3 Customer Points to get paid on your front line**, 5 Customer Points to get paid through level 7, and 10 Customer Points to get paid to infinity.
- ü *You never need to have more than 15 Customer Points the entire time you are with Fortune.*
- ü Products we sell are at the same price you would find every where else. Other network marketing companies sometimes charge more so it's reps can get paid... NOT US!
- ü **You never lose the money you get from another level.** Your Manager Code income combines with your Regional Code income, which combines with your Executive Code income and again with your National Code Income.
- ü **You never lose a promotion – even if everyone that brought you to that promotion quits or stops doing the business.** For example if everyone of the 12 reps that brought you to the promotion of RSM did not renew, you still will never loose that promotion!
- ü While other network marketing companies pay out the most for those who make it to the top of their promotion levels... our biggest pay is on the first promotion of Regional Sales Manager!
- ü When you reach the top level of income, it is a combination of every level of income you have earned since you first began with Fortune.
- ü Our customers are not buying some magical lotions or potions, juice or gels ... rather they buy products and service they are already buying. There is not change in buying habits!
- ü Most Network marketing companies have a very unique product, and the rep must first educate the customer that it is a great product, then when the value of the product they are introduced to the business opportunity... FHTM is simply a middleman like Wal-Mart, Meijer's, or Target... if we "sell" we sell established products that people are already using and get a commission on those sales!
- ü Fortune dose not spend money on manufacturing and shipping unique products or on customer service ... therefore over 90% of the money Fortune makes goes directly to the reps. (and that amount increases regularly as FHTM grows!)
- ü **There is NO aggressive selling of products.** You are your own best customer. In most cases you and one or two friends or family members are the ONLY customers you will ever need.

If you can find a Network Marketing or Direct Selling Company ... anywhere in the world ... that pays out more income to their Representat ves than Fortune Hi Tech Marketing, we would like to see it because we believe that Paul will find a way to outdo them.

“I have looked at and dissected Paul’s company as well as its compensation plan, and in my opinion, it is the most unique network marketing company in the country and his compensation plan is the most generous plan in the industry. Nothing I have ever looked at comes close. In fact, before you really understand how it pays out, it defies logic. ...
